americanlite®

Square Pro™ Series

Single & Continuous Run
## CCT Selectable
40w

Americanlite® offers one of the industry's broadest lighting portfolios for commercial and industrial lighting applications. Our LED lighting fixtures are recognized for their quality, reliability, and solid performance, making Americanlite® one of the most specified brands in the lighting industry.

Square Pro™ Series is specifically crafted to be the most versatile linear fixture in the market. Every Square Pro™ fixture is ready for single or continuous run; we have integrated UL internal connectors and mechanical accessories to join one fixture to another allowing up to 30 fixtures in one row using only one power cable every 10 fixtures; suspended, recessed mounting or surface mounting, no limits.

Square Pro™ Series is built on a heavy-duty steel chassis for the perfect blend of strength, weight, and thermal performance. Square Pro™ Series utilizes a frosted polycarbonate diffuser which provides an exceptional lumen output that translates to effective luxes across the area. We have incorporated premium components, adjustable aircraft cable, power cable with rubber sleeve, UL Specification Grade dimmable 0-10v driver with 2KV SP and powerful led package. Americanlite® innovative selectable 3-CCT feature incorporates a switch on each fixture for simple color temperature adjustment. Too warm or too cool? Simply toggle the integrated switch to your desired setting and you are done! Whatever your application, Square Pro™ Series are sure to give you the feel and flexibility that you need.

Square Pro™ has a minimalist design perfect for offices, schools, retail spaces, hotels and institutional projects, looking to accommodate large footprints. Square Pro™ Series produces comfortable high-quality ambient illumination that can improve occupant comfort and productivity. It fits modest budgets without sacrificing style or functionality. The neutral, rectilinear form factor is impressive—but the energy-saving LED, advanced technology and reliable performance sets a new standard.

Warranty

Americanlite® is pleased to provide a 5 year limited warranty covering the LED fixtures in this catalogue. Americanlite® warrants that the LED fixtures comply with Americanlite®'s published specifications and are free from defects in materials and workmanship.

All our equipment is CE, TUV, FCC or UL approved and manufactured with approved components. Americanlite® reserves the right to change or improve the design or components of any of its products due to parts availability or changes in standards, without assuming any obligation to modify any product previously manufactured and without notice. All equipment is tested and inspected before shipment.

This warranty is void if the product is operated outside of its normal operating conditions. The foregoing warranty does not apply to failures caused by acts of God or as a result of any abuse, misuse, abnormal use, or use in violation of any applicable standard, code or instructions for use in installations, including, but not limited to, those contained in the Standards for the International Electrotechnical Commission. Americanlite® reserves and has the right to examine failed lamp to determine the cause of failure, excessive lumen depreciation and patterns of usage.
