

Titan E Series™

LED Round High Bay

100w/150w/200w

IP65	IK05	VOLTS 85-265
CRI 70	CCT 6500K	PF >0.90
Lumens 90l/w	2kV Surge Protector	30,000
120° Beam Angle	-20°C~60°C	3 YEAR Warranty

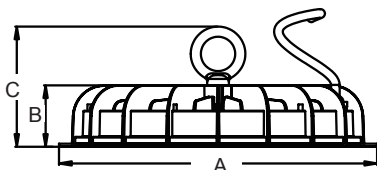

Heavy industry is a broad description of many industries such as paper mills, foundries, casting or welding facilities and many more. One common attribute is that they are difficult environments for light fixtures. The Titan E Series™ High Bay provides quick and easy installation for retrofitting outdated HID and linear fluorescent high bays.

The Titan E Series™ High Bay is an economic solution for both low bay and high bay applications. Designed with good optics, the Titan E Series delivers great performance utilizing LED technology. Powerful LEDs resulting in a optimum performance with 90 lumens x watt.

A unique radial body & fins allows to operate in -20°C to 60°C ambient environments and maintains the LEDs with controlled temperature, resulting in a stunning 30,000 hours of life @ 90 lumens x watt. The patented Linear Power Supply, 100-265V PF>0.90, has a powerful 2KV surge protection, to ensure safe performance.

The Titan E Series™ High Bay is designed to efficiently light any large interior space such as, warehouses, stores, public spaces, machining, foundries, automotive, packaging among many other applications.

Dimensions (mm)

Watt	A	B	C
100w	250	48	85
150w	298	51	88
200w	340	53.5	90.5

Ordering information

Item	Watts	Lumens	Options
AL674200	100w	9000	Blank 6500K
AL674201	150w	13500	5 5000K
AL674202	200w	18000	

Note:
± 7% Lumen tolerance
± 10% Power tolerance

Packing information

Model	CBM (Master)	Pieces/master	Box Dimensions (cm)	Gross weight (Kg)
100w	0.0390	10	56.5 x 26.6 x 26	14
150w	0.0576	10	60 x 31 x 31	19.5
200w	0.0403	5	32 x 35.5 x 35.5	13
