# **DMR**<sup>™</sup> Series

2"

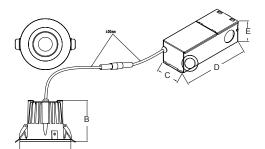

The DMR™ Series is a Round Specification-Grade downlight, with a minimalist 2" aperture that combines optical performance and control for architectural applications.

DMR™ Series is at the pinnacle of where lighting innovation meets design and efficiency. A high-performance serviceable integrated LED with a state-of-the-art light engine delivers incredible maintenance-free optics and performance ideal for high-end residential and commercial applications.

The DMR™ Series Features a unique "canless" design. Computer designed smooth reflector, creates more uniform light with fewer downlights without worrying about glare or distractions. DMR™ Series optic system offers a comfortable, soothing light, achieving uncompromising illumination with a true 36° Beam and CRI>90. The Led power, optical chamber (made of die cast aluminum), and driver compartment work together in harmony to create a thermal management system in a single compact unit. Secure trim retention with two side-mounted spring clips for easy installation in plaster, sheet rock, or plywood ceilings.

DMR™ Series is the ideal specification grade downlighting for remodel or new construction projects. It delivers exceptional visual comfort and optical control, extraordinary mechanical precision, installation efficiency and future proofing. Designed for optimal life and lumen maintenance, DMR™ Series is the perfect balance of visual comfort and quality of light.

# **DXP4™** Series

4"

The DXP4™ Series is a Round 4" residential / commercial grade LED recessed downlight with cutting edge DOB led technology that eliminates the need for drivers, resulting in a more stable and powerful fixture, with stunning lifetime up to 50,000 hours, and power factor >90%.

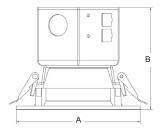

The DXP4™ Series downlights feature a unique "canless" design. These all-in-one LED fixtures include an integrated junction box for direct wiring, require no tools and take less than 1/3 of the time to install versus a conventional fixture with can. Secure trim retention with two side-mounted spring clips for easy installation in plaster, sheet rock, or plywood ceilings.

The DXP4™ Series computer designed baffle reflector, creates more uniform light with fewer downlights without worrying about glare or distractions. DXP4™ Series optic system offers a comfortable, soothing light, achieving uncompromising illumination with a true 102° Beam and CRI>90. The optic chamber, made of heavy-duty PC ensures maximum heat dissipation.

DXP4™ Series features 120v & TRIAC dimming, to add versatility and control. DOB technology, led power, and housing work together in harmony to create a thermal management system in a single compact unit. DXP4™ Series are IC Rated and comply with National Electrical Code (NEC), ETL, Energy Star and Title 24 approved.

DXP4™ Series is the ideal specification grade downlighting for remodel or new construction projects. It delivers exceptional visual comfort and optical control, extraordinary mechanical precision, installation efficiency and future proofing. Designed for optimal life and lumen maintenance, DXP4™ Series is perfect balance of visual comfort and quality of light.

# **DLR5C**<sup>™</sup> Series

CCT Selectable 3"/4"/6"/8"/12"

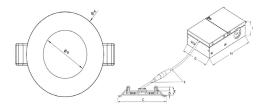

The DLR5C™ Series LED downlights with selectable CCT are ultra-thin recessed downlights ideal for shallow ceiling plenum applications. Quality, housing-free recessed downlighting is achieved with its narrow remote driver box. It features a switch for easy color temperature adjustment. The DLR5C™ Series fixtures are quick and simple to install from below the ceiling with as little as 3-inch plenum clearance.

Americanlite, innovative selectable 5-CCT feature incorporates a switch on each fixture for simple color temperature adjustment. Not 3.... but 5 different choices for every single application (2700-3000-3500-4000-5000K). Too warm or too cool? Simply toggle the integrated switch to your desired setting and you are done! Whatever your application, the DLR5C™ Series luminaires are sure to give you the feel and flexibility that you need. More flexibility? DLR5C Series™ fixtures are dimmable (Triac) 10-100%.

The DLR5C™ Series slim design allows for easy retrofit, remodel or new construction installation from below the ceiling as the perfect choice when you have joists or duct work in the way. They are wet location listed, making them ideal for use in a breadth of outdoor residential, hospitality, light commercial and multi-family applications.

The DLR5C™ Series is the ideal specification-grade architectural downlighting. It delivers exceptional visual comfort and optical control, extraordinary mechanical precision, installation efficiency and future proofing.

# DLX Max<sup>™</sup> Series Lumen Selectable

3"/4"/6"/8"

The DLX Max™ Series LED downlights with lumen selectable are Architectural Specification-Grade, recessed downlights ideal for Professional applications. Quality, housing-free recessed downlighting is achieved with its narrow remote driver box. It features a switch for easy lumen adjustment. The DLX Max™ Series fixtures are quick and simple to install from below the ceiling.

Americanlite<sub>®</sub> innovative lumen selectable feature incorporates a switch on each fixture for simple lumen (power) adjustment; 3 different choices for every single application. Too bright or too dark? Simply toggle the integrated switch to your desired setting and you are done! Whatever your application, the DLX  $\text{Max}^{\text{TM}}$  Series luminaires are sure to give you the feel and flexibility that you need. More flexibility? DLX  $\text{Max}^{\text{TM}}$  Series fixtures are dimmable 0-100%.

All components in DLX Max™ Series are top of the line, every detail has been taken care of for a premium performance. DLX Max™ luminaires offer a lower splay recesses optical system into the ceiling to prevent glare and provide a professional look. Rugged one-piece die-cast aluminum heat sink design for optimal thermal management. Wet location rated lens is tightly fitted to the housing to reduce the ingress of dust. Clear specular spun aluminum reflector provides glare free illumination with excellent light control. A patented micro prism lens and a stunning CRI 90 will bring true colors, completing your project to a high-end profile.

The DLX Max™ Series is the ideal Architectural Specification-Grade downlighting. It delivers exceptional visual comfort and optical control, extraordinary mechanical precision, installation efficiency and future proofing.

CCT/Power Selectable 6"

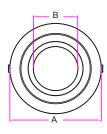

The DLX Pro™ Series LED downlights with selectable CCT are specification grade recessed downlights ideal for ceiling plenum applications. Quality, housing-free recessed downlighting is achieved with its fully enclosed modular system ensuring maximum heat dissipation. It features a switch for easy color temperature adjustment.

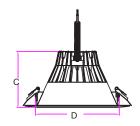

Americanlite<sub>®</sub> innovative Selectable 3-CCT feature incorporates a switch on each fixture for simple color temperature adjustment. Different choices for every single application. Too warm or too cool? Simply toggle the integrated switch to your desired setting and you are done! Whatever your application, The DLX Pro™ Series luminaires are sure to give you the feel and flexibility that you need. More flexibility? The DLX Pro™ fixtures are dimmable 0-10V and 120-277v.

Computer designed reflector, creates more uniform light with fewer downlights without worrying about glare or distractions. DLX Pro™ Series optic system offers a comfortable, soothing light, achieving uncompromising illumination with a true 90° Beam. Silver color housing (white for 14w/18w).

The DLX Pro™ Series with selectable CCT are the ideal specification-grade architectural downlighting. They are wet location listed, making them ideal for use in a breadth of outdoor residential, commercial, hospitality and multifamily applications. It delivers exceptional visual comfort and optical control, extraordinary mechanical precision, installation efficiency and future proofing.

# **DLC**<sup>™</sup>Pro Series

5 CCT & Power Selectable 4"/6"/8"/10"

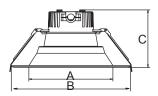

The DLC™ Pro Series LED downlights with selectable CCT & power are specification grade recessed downlights ideal for ceiling plenum applications. Quality, housing-free recessed downlighting is achieved with its fully enclosed modular system ensuring maximum heat dissipation. Secure trim retention with two side-mounted spring clips for easy installation.

Americanlite<sub>®</sub> innovative selectable 5-CCT feature incorporates a switch on each fixture for simple color temperature adjustment. Different choices for every single application. Too warm or too cool? Simply toggle the integrated switch to your desired setting and you are done! Whatever your application, The DLC™ Series is sure to give you the feel and flexibility that you need. More flexibility? The luminaires are power selectable, dimmable 0-10V and 100-277v. DLC™ Pro Series are IC Rated and comply with National Electrical Code (NEC), UL, Energy Star and Title 24 approved.

DLC™ Pro Series luminaires features a computer designed reflector, that creates more uniform light with fewer downlights without worrying about glare or distractions. DLC™ Pro Series optic system offers a comfortable, soothing light, achieving uncompromising illumination and CRI>90.

The DLC™ Pro Series with selectable CCT & power, are the ideal specification-grade architectural downlighting. They are wet location listed, making them ideal for use in a breadth of outdoor residential, commercial, hospitality and multifamily applications. It delivers exceptional visual comfort and optical control, extraordinary mechanical precision, installation efficiency and future proofing.

# **DLC**<sup>™</sup> Series

3 CCT & Power Selectable 6"/8"

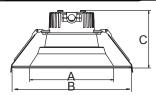

The DLC™ Series LED downlights with selectable CCT & power are specification grade recessed downlights ideal for ceiling plenum applications. Quality, housing-free recessed downlighting is achieved with its fully enclosed modular system ensuring maximum heat dissipation. Secure trim retention with two side-mounted spring clips for easy installation.

Americanlite<sub>®</sub> innovative selectable 3-CCT feature incorporates a switch on each fixture for simple color temperature adjustment. Different choices for every single application. Too warm or too cool? Simply toggle the integrated switch to your desired setting and you are done! Whatever your application, The DLC<sup>TM</sup> Series is sure to give you the feel and flexibility that you need. More flexibility? The luminaires are power selectable, dimmable 0-10V and 100-277v. DLC<sup>TM</sup> Series are IC Rated and comply with National Electrical Code (NEC), ETL, Energy Star and Title 24 approved.

DLC™ Series luminaires features a computer designed reflector, that creates more uniform light with fewer downlights without worrying about glare or distractions. DLC™ Series optic system offers a comfortable, soothing light, achieving uncompromising illumination and CRI>90.

The DLC™ Series with selectable CCT & power, are the ideal specification-grade architectural downlighting. They are wet location listed, making them ideal for use in a breadth of outdoor residential, commercial, hospitality and multifamily applications. It delivers exceptional visual comfort and optical control, extraordinary mechanical precision, installation efficiency and future proofing.

# DXP8<sup>™</sup> Series

The DXP8™ Series is an 8" commercial grade LED recessed downlight with cutting edge led technology that offers color consistency from fixture to fixture.

The DXP8™ Series downlights feature a unique "canless" design. These all-in-one LED fixtures include an integrated junction box for direct wiring, require no tools and take less than 1/3 of the time to install versus a conventional fixture with can. Secure trim retention with two side-mounted spring clips for easy installation in plaster, sheet rock, or plywood ceilings.

The DXP8<sup>TM</sup> Series computer designed baffle reflector, creates more uniform light with fewer downlights without worrying about glare or distractions. DXP8<sup>TM</sup> Series optic system offers a comfortable, soothing light, achieving uncompromising illumination with a true 94° beam and optional CRI>90. The optic chamber, made of extruded aluminum ensures maximum heat dissipation.

DXP8<sup>™</sup> Series features an integrated UL driver 100-277v & 0-10v dimming, adding versatility and control. LED power, driver and housing work together in harmony to create a thermal management system in a single compact unit, with a life expectance of 50,000 hours at 70% lumen maintenance. DXP8<sup>™</sup> Series are IC Rated and comply with National Electrical Code (NEC), ETL, Energy Star and Title 24 approved.

DXP8™ Series is the ideal specification grade downlighting for remodel or new construction projects. It delivers exceptional visual comfort and optical control, extraordinary mechanical precision, installation efficiency and future proofing. Designed for optimal life and lumen maintenance, DXP8™ Series is perfect balance of visual comfort and quality of light.

# Disk<sup>™</sup> Series CCT Selectable

4"/6"/8"/11"

Americanlite<sub>®</sub> Disk™ Series incorporate DOB™ technology to create an ultra-low profile, surface-mounting LED luminaire with the performance and look of traditional downlights. Disk™ Series is designed for installation in many square, octagon and round junction boxes. Suitable for residential or commercial installations.

Americanlite<sub>®</sub> innovative selectable 5-CCT feature incorporates a switch on each fixture for simple color temperature adjustment. Not 3...but 5 different choices for every single application (2700-3000-3500-4000-6000K) and an impressive CRI 80. Too warm or too cool? Simply toggle the integrated switch to your desired setting and you are done! Whatever your application, the Disk™ luminarie is sure to give you the feel and flexibility that you need. More flexibility? Disk™ is dimmable (Triac) 10-100%.

Disk™ luminaire housing and frame are made of stamped steel; white finish standard (paintable), other colors available. Precision engineered optic provides uniform luminance from a low-profile convex lens.

Disk™ luminaire L70 at 60,000 hours projected in accordance with TM-21. EMI/ RFI emissions per FCC 47CFR Part 15B. Disk™ luminaire contains no mercury or lead and RoHS compliant. Photometric testing in accordance with IES LM-79-08.

The Americanlite<sub>®</sub> Disk™Series offers unparalleled design freedom with mainstream value. Perfect for residential or commercial installations and ideal for general lighting, schools, hotels, storage areas, corridors, basements, kitchen, and many more.

# **Puck<sup>™</sup> Series**

4"/6"/8"/10"

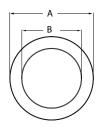

Americanlite<sub>®</sub> Puck<sup>™</sup> Series are surface mounted LED fixtures with an unobtrusive (less than 1" deep) profile that cleanly integrates and compliments any décor.

Americanlite<sub>®</sub> Puck™ Series offers a sleek ultra-low profile in multiple sizes from 4" to 10". Provides economical installation by mounting directly over standard and fire-rated junction boxes. Puck™ luminaire ring is PC material, back plate: steel, and diffuser: PS. Precision engineered optic provides uniform luminance from an engineered flat lens. DOB driver with Triac dimming capacity, 100% to 10%. Color temperature options include: 3000K, 4000K and 5000K (ANSI C78.377- 2015 guidelines). Complies with Energy Star's requirements for color stability. Puck™ luminaire does not contain mercury or lead and is RoHS compliant. Photometric testing in accordance with IES LM-79-08. Lifepan: 30,000-hour LED lifespan based on IES LM-80 results and TM-21 calculations.

Americanlite<sub>®</sub> Puck<sup>™</sup> Series provides general illumination in residential and commercial applications including multi-family and hospitality. Ideal for use in corridors, living spaces, closets, hallways, pantries, stairways, outdoor covered areas and much more.

## Warranty

Americanlite<sub>®</sub> is pleased to provide a 5 year limited warranty covering the LED fixtures in this catalogue. Americanlite<sub>®</sub> warrants that the LED fixtures comply with Americanlite<sub>®</sub>'s published specifications and are free from defects in materials and workmanship.

All our equipment is CE, TUV, FCC or UL approved and manufactured with approved components. Americanlite reserves the right to change or improve the design or components of any of its products due to parts availability or changes in standards, without assuming any obligation to modify any product previously manufactured and without notice. All equipment is tested and inspected before shipment.

This warranty is void if the product is operated outside of its normal operating conditions. The foregoing warranty does not apply to failures caused by acts of God or as a result of any abuse, misuse, abnormal use, or use in violation of any applicable standard, code or instructions for use in installations, including, but not limited to, those contained in the Standards for the International Electrotechnical Commission. Americanlite® reserves and has the right to examine failed lamp to determine the cause of failure, excessive lumen depreciation and patterns of usage.
